

HEALTHY KIDS DENTAL

You or your child has dental benefits through the **Healthy Kids Dental** plan when one of you is an Upper Peninsula Health Plan (UPHP) Medicaid member younger than 21 years. The Healthy Kids Dental benefits come from Delta Dental rather than UPHP.

To get this dental care, you need to find a dentist who treats patients with Healthy Kids Dental. To find a dentist:

- Call dentists in your area and ask if they participate with Healthy Kids Dental.
- Go to this page at the Healthy Kids Dental Web site:

www.deltadentalmi.com/cgi-bin/DentistDir.exe?carrier=DDPMI

On this page, you can use your zip code to find dentists.

You need to take your Delta Dental card with you when you or your child sees the dentist. The dentist will bill Delta Dental. You do not have to pay for covered services.

To see a list of what Healthy Kids Dental covers:

- Look at your *Healthy Kids Dental Handbook*.
- Go to this page at the Healthy Kids Dental Web site:
