

COVID-19 Guidance Available on UPHP Website

In an effort to communicate the most up-to-date guidance with our providers throughout the rapidly evolving COVID-19 outbreak, Upper Peninsula Health Plan (UPHP) has created a new web page – www.uphp.com/coronavirus. The web page will contain information for both members and providers and will be reviewed and updated at least daily, or more often, if necessary.

UPHP will compile information on the website, such as:

- Coverage updates for UPHP members
- Medicaid Policy Bulletins
- Centers for Medicare & Medicaid Services Memos
- Centers for Disease Control & Prevention Guidance

For their health and safety, the vast majority of our staff are now working remotely. With their hard work and dedication, we expect to maintain operations as usual, and be your partner during these difficult and uncertain times.

Questions?

Please check the website frequently for updates.

If you have additional questions, please contact:

- UPHP Provider Relations at uphpproviderrelations@uphp.com or at (906) 226-4285
- UPHP Claims Services through our [Provider Portal](#) or at (906) 225-7746.
