

ATTENTION: PROVIDERS

Now Available Online! Interactive UPHP Prior Authorization & Notification Form

Upper Peninsula Health Plan (UPHP) has developed a new, interactive prior authorization/notification form for providers to use to replace the multiple PDF forms on our website. By choosing the type of service you are requesting for prior authorization/notification, the form will provide you the fields that are needed in order for UPHP to process authorizations faster by reducing calls for the required information. Once you have completed the form, you can then print the form and fax to UPHP as you normally do with the supporting clinical information.

Please note, the UPHP interactive prior authorization/notification form works best using Google Chrome.

For printing, please use the following print settings:

- **Chrome:** Set margins to minimum. Make sure scale is set to 100 or less.
- **Internet Explorer:** Make sure “shrink to fit” is chosen.

Available on the UPHP website at:

<https://www.uphp.com/providers/authorization-process/>

Prior Authorization/Notification Request Form

For technical issues with the form, please contact the UPHP Help Desk at (906)225-6811. For any other questions regarding our new form, contact the UPHP Utilization Management Department at (906)225-7774.
